"Thank you so much for offering the class over break. I took the December ACT before your class and scored a 24. I was really excited after taking your class, so I decided to take the February ACT. I got a 29!!! You're the best!" - Josie

"I just had to send you a note. When I picked up my son after the first class, he kept going on and on about what you did in class. Everytime I picked him up, it was the same thing, he would go on and on about your class. He not only talked about the test - taking strategies you taught but also how you connected everything to college. I've never seen him so motivated about school before. The funny thing is I had to talk him into doing the class over break. Now, he's telling all his friends that they've just got to take your class. Thank you so much, Jason, for inspiring my son. Keep up the good work."

- George's Mom

**Aimee's Story: Our program is different.**

**22 to 27**

Like many high school students, Aimee took her high school's ACT prep course during her junior year. She was very disappointed with her 22 which wouldn't be good enough to get her into the University of Illinois. She took the test twice and got a 22 twice. Her Dad called us three times the summer before her senior year gathering information about our program. Aimee didn't want to take "another" ACT course. Her Dad convinced her that our program was different and she took our summer course. She took the test again in October of her senior year and improved five points, *earned four academic scholarships* and went to the University of Illinois!

**Augie's Story: Doing it right!**

**30 to 35**

Augie did it right. He took our summer course then took the ACT in the fall of his junior year. He scored a 30 on his first ACT. That first test helped him realize what he needed to work on. He took more of our classes during the spring of his junior year, and took the ACT twice in April, scoring 33 then 35. He received the presidential scholarship at Southern Illinois University – Carbondale. He has a free college education!

**Beth's Story: Is it worth it? You decide.**

**24 to 28**

Beth scored a 24 on the April ACT during her junior year. She then took the summer ACT Prep Class taught by Jason at Millikin University. She re-took the ACT in the fall, improved her score four points, receiving a 28.

Beth had her heart set on a particular private college. Originally the college offered her a \$16,000 scholarship. After reporting the higher ACT score, the private college decided to increase her scholarship package to \$40,000 because of her HIGHER ACT score.

Her GPA did not change.

Her class rank did not change.

**Her ACT did change.**

She received \$24,000 **MORE** in scholarships because of four ACT points.

Every point makes a difference.
